Redefining Innovation

Empowering Solution

Increased Visibility

Easy Maintenance

Fast Deployment

Tracked Assets

Remote Contract Signing

Reduce contract time by remotely sending the contracts signed with the retailers and distributors.

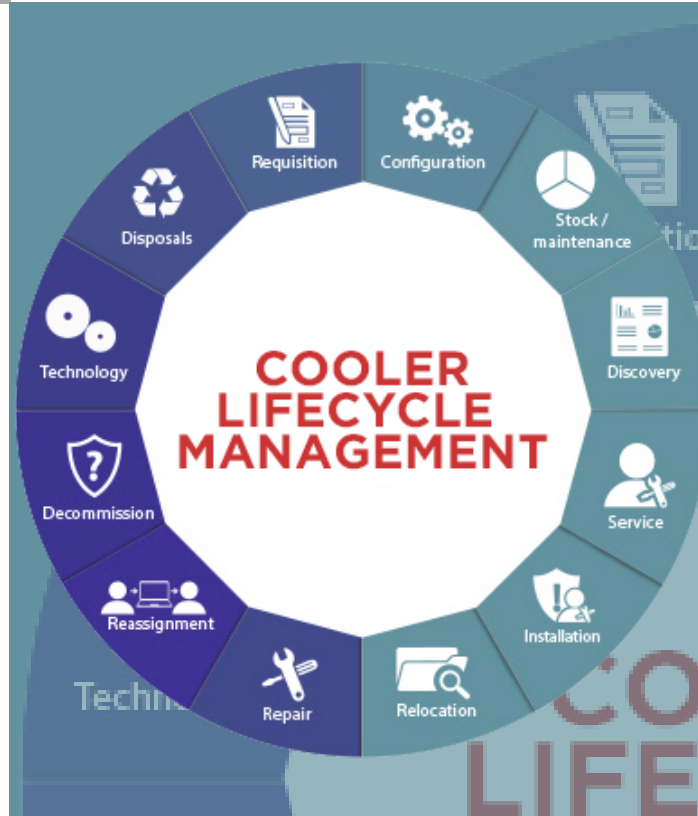

Reduce Damages, Losses & Theft

Reduce damages, losses, theft and write off by auditing and tracking to organize and manage business-critical assets.

Success Story

Designed CLM system for Coca Cola Icecek and Haidri Beverages (PEPSI) with some exciting features of offline mode mobile application, digital signatures for legal contracts and mission critical services like asset tagging and management, agreement creation, asset number allocation, SMS confirmations and seamless integration with their existing systems.

Reduce Costs

Reduce equipment downtime and reduce maintenance costs. Manage the complete lifecycle of complaint from incident to resolution.

Smarter Asset Management

Work Smarter and save time for asset management by tagging assets and taking control of inventory receiving, inventory management, current allocations and eventually the disposition.
